

Based on the **Strategic Cover Letter Blueprint** and the five-step process discussed in our conversation history, here is a sample cover letter formatted for an Upwork proposal 1.

Sample Cover Letter

Hi Client Name, 2

I saw you are looking for Specific Goal, e.g., a video editor to increase your YouTube retention. I can help you achieve this by Specific Strategy, e.g., using high-engagement "hook" editing in the first 30 seconds of your videos. 2

Below are three highly relevant examples of my work that match your project requirements exactly: 3

- Work Sample 1 Title - Link/Description 3
- Work Sample 2 Title - Link/Description 3
- Work Sample 3 Title - Link/Description 3

I can deliver X, e.g., your first draft within a Y, e.g., 48-hour timeframe. 3 I specialize in Specific Skill, e.g., narrative pacing which will help you solve Client Problem, e.g., the viewer drop-off you've been seeing in your analytics. 3

I would love to discuss your project further. Are you available for a 10-minute introduction call this week to see if we are a good fit? 4

Best regards,

Your Name
